

## Tilddale Certified Organic Farm

The Tilddale Family Farm was established in 1938 along the picturesque Hoosick River. It has recently transitioned from organic dairy to raising grassfed, heritage-breed beef and pasture-raised pork. Our primary goal is to nourish our neighbors with wholesome food. Our future plans include raising chickens for meat and eggs and perhaps turkeys.

Announcing “Tilddale Certified Organic Meat CSA” in collaboration with Alleged Farm.

A share consists of approximately 30 pounds of meat (either grassfed beef or pork). A beef share will include a variety of steaks, roasts, soup bones, stew beef and hamburger. Organ meats may be ordered separately if you desire. A pork share will be chops, roasts, fresh ham slices, sausage (sweet and hot Italian or breakfast) and ribs. Shares will vary depending upon availability. Our usual smoker has given up his certification, but he is still available to do naturally smoked bacon without nitrates.

### Meat CSA Order Form
